

## GALLEY HILL CHILDREN'S CENTRE

The importance of play in the early years of a child's life cannot be understated.

All children learn through their experiences, and one of the best way to help your child develop is to engage in play.

Play will stimulate their mind, body and senses from babyhood - its never too early to play or read to your child.

As parents, we are the first teachers a child will ever know. They learn through watching, copying and observing so we all have a very important role to play as we give encouragement and support whilst they develop the basic skills.

So enjoy - and have fun!

# Galley Hill Children's Centre Toy Library

The idea of a toy library is very simple - we rent out toys that you may not always have at home, or in your early years setting.

The toy library offers you the chance to access toys, games and books that stimulate and provide fun and learning, for both you and your child

Whilst the toy library is open we run a stay and play session - you don't always have to borrow when you visit.

We charge an annual fee and a small charge for each item, and this allows us to replace items or buy new toys. As a member you can suggest ideas for anything else the toy library needs.

We have a list of terms and conditions when you join, and you get a library card itemizing what you have borrowed and when it is due to be returned.

To see our catalogue visit our website or pop in whilst the session is on. We are happy to deliver any toys that are bulky or awkward to carry.
